

# REX10

EXCAVATOR

# Unprecedented precision and ease of operation.

This Rhino excavator is loaded with enhancements that not only increase productivity and uptime, but lower daily operating costs, too. A high-efficiency “on-demand” cooling system, advanced multifunction monitor, and productivity modes to allow you to choose your digging style headline the long list of advances.

1. The standard rubber track lets you work on multiple surfaces such as grass, pavement or stone without damaging the surface or machine.
2. Generous flow, and swing torque help speed cycles. So you can do your best to stay on schedule or ahead of the weather.
3. Reliable and durable Yanmar diesel engine, more efficient with low maintenance costs.
